

GREENHOUSE WATERING ENTRY LEVEL AND/OR MANAGER POSITION

Pioneer Gardens, Inc. has a reputation for supplying growers in North America with very high quality starter herbaceous perennial plant material. The expertise of our team of growers makes that happen every day and you are invited to join these experts in the trade.

We are looking for individuals to learn the art of watering so that the young plants will grow properly. Spring and summer hours are from 7 a.m.-3:30 pm, Monday-Friday and 7 a.m.-3:30 pm every sixth weekend on Saturday and Sunday. Fall and winter hours would be adjusted with the season. You need to be physically fit and able to lift up to 30 lbs. Hours can be flexible to your schedule within reason.

We need an interested, dedicated person who is prepared to concentrate on the watering/feeding needs of thousands of young plants on mainly ebb/flood tables. You will receive on-the-job training to make daily, "just right", watering decisions to ensure that the crops under your charge grow properly with minimum shrink. The position could ultimately develop into that of lead watering person in charge of the irrigation needs of a few acres of young plugs

When no watering is required, you will perform other greenhouse activities, such as pinching, moving tables, scouting for insects, analyzing foliar, root and nutritional health, and applying Biological controls. Suitable training for these jobs will be provided.

Pioneer Gardens, Inc. offers competitive pay, a complete benefits package upon eligibility including insurance, retirement savings, 3 week paid vacation and paid holidays and an opportunity to be part of an expanding company with an enthusiastic and dedicated team. Random drug testing is part of our safety policies.

When you are interested in applying for this position please contact Jaap Molenaar at: jaap@pioneergardens.com and provide your resume and references.
